To Members of the Michigan State Board of Canvassers;

I hereby respectfully request that you do not certify the November 3<sup>rd</sup> Presidential Election results until a full, independent audit can be completed of the City of Detroit's election results.

Precincts MUST balance prior to certification. Members of the Wayne County Board of Canvassers expressed concern that numerous precincts were not balancing and would not certify the election; only agreeing to certify the results after the Board's public hearing. This is not acceptable and a full, complete and independent audit should be conducted to establish if the precincts can or cannot be balanced.

Precincts not in balance is unacceptable without complete and legitimate explanation.

Please submit this written comment into the record for the November 23, 2020 meeting.

Thank you.

Signed,

**CAUTION: This is an External email. Please send suspicious emails to [abuse@michigan.gov](mailto:abuse@michigan.gov)**

---

After the death of 10s of 1000s of Americans, Abraham Lincoln remarked that a government of the people, by the people, and for the people shall not perish from this Earth.

History has its eyes on you today - the world has its eyes on you today. Your decision to certify today and uphold the will of the people - and in such - a government of the people, for the people, and by the people - will determine your place in the written history future generations of Americans will read about.

And it will be your names etched in the pages of history as either the catalyst that began the erosion of American democracy or the governing body that upheld it.

As a military veteran who has served honorably to uphold the Constitution and the ideals and principles of American democracy, I implore you to lead with your duty as American citizens who respect the will of the people, and not succumb to the pressures or politics.

Remember, history is watching, and you will be remembered for generations of Americans to come for your actions today.

I ask that you certify and therefore uphold the will of the people of your state, and allow American democracy to be shown as a guiding light for the rest of the world,

Thank you.

Sean P. Coghlan

Certification should not be a partisan issue. Do the right thing.  
The people have spoken just as they did in 2016.

It is time to move on. We need a peaceful transition, just like Pres. Trump received from the Obama administration.

Dear Board of Canvassers,

Today you meet to certify Michigan's election results.

Michigan voters have made their choice clear with over 1.5 million more votes for Biden/Harris than for President Donald Trump. It is your legal obligation to certify this election so that we move forward to a smooth transition in January. The lawsuits brought to our courts have had no legal basis, no evidence to support any fraud in the system and certainly not enough to overturn 1.5 million votes

Execute your obligation as required and as the majority of voters in Michigan have indicated - CERTIFY THIS ELECTION!

Thank you,

I am a citizen of Michigan and a registered voter. This year I served as a Poll Watcher/Challenger on behalf of the Lawyers' Committee for Civil Rights Under Law. I spent election day observing Oak Park's 7th and 8th precincts at Oak Park High School. What I witnessed that day was inspiring. At least 6 citizens of Oak Park served admirably as Poll Workers throughout the entire day and the precinct ran like clockwork. This group followed every rule in the book and ensured that every registered voter was able to speak his or her voice and vote in the November election. Further, these workers did so with patience, grace, and warmth. It was a sight to behold.

In my capacity as a citizen and a voter, I have other thoughts about the process which is to take place today in Lansing.

We, Americans collectively, have not yet claimed the distance and time to appropriately view the challenges to our national election from a long-term historical perspective. However, we should be able to dispassionately view the political machinations that are in motion with deep skepticism and give no quarter to cynical, self-interested actors willing to subvert our democratic elections for short-term personal gain.

Free, open, transparent, fairly conducted elections are a pillar of our political system - one which has endured for centuries. Elections are not like most other events in our political system, where reasonable minds can disagree about the righteousness of a thing or an act. Elections conducted fairly are essential to a well-functioning democracy and to unreasonably throw them into question over spurious and trivial "questions" is to chip away at the foundation of self-governance.

The President of the United States, having cajoled his party into fealty, has been announcing his intention of calling an election that he did not win into question for years. Nearly 3 weeks have passed and no evidence of fraud or subversion on a scale of any significance has been presented anywhere in the country, let alone Michigan. Practically every court case the President's attorneys have brought before judges have failed on both standing and merit, and these judges have written scathing opinions about the types of remedy the President seeks (namely large-scale disenfranchisement). Please reference U.S. District Court Judge Matthew Brann's recent opinion for a comprehensive view of the president's legal situation.

It is my understanding, based on reputable news reports and public statements, that certain Republican members of the Michigan State Board of Canvassers wish to achieve the president's aims extrajudicially by refusing to perform their duties and by failing to certify the November election in Michigan. This action would disenfranchise me along with millions of my fellow citizens.

If the aim is to foster widespread and enduring cynicism and wage war on a pillar of American democracy, then this is a perfect tactic.

Perhaps these members of the Board are merely short-term thinkers who fail to comprehend their relatively small, but meaningful role in history and the continuation of a well-functioning democratic system.

It is not hyperbole to suggest that a failure to certify this election will enshrine these members of the board in a cold, dark space in our state's and nation's history. Their names will forever be tied to the subversion of democracy, political decay, and general intellectual impotence.

I implore these members to think in broader historical terms about what their actions will say. I assume these people are not idiots and can recognize that there exists no possibility that any discrepancy or unresolved issue relating to the November election could possibly justify the failure to certify the results.

There exist some ideas and principles so fundamental to a society such as ours that no allegiance to some party or group, which is by its nature transitory and tenuous, should be able to transcend.

I implore these members to do their job, uphold the will of Michigan's voters, protect democracy from those that seek to use it for personal gain, and certify the results of this election.

Folks,

There is more than enough evidence that there was fraud in this recent election.

- 1) sworn affidavits by hundreds of people, elections workers, observers.
- 2) mathematical anomalies are incredible to show there is no way statistically that this type of post Election Day mail in ballots would yield this type of outcome. I.e. all the votes for one candidate.
- 3) in Wayne county the observers were NOT allowed to observe.
- 4) No validation of signature or any other means the vote
- 5) deceased voters voting
- 6) our State Legislators did not play those this illegal vote to take place. The rules (per the constitution) on State elections is to be set by our State legislators.

There is way too much evidence to look the other way. We the people demand a full legislative audit of all legal votes! There is no other way as to not disenfranchise millions of voters who took the time to legally vote.

The people of Michigan have made it know that we have chosen president elect Joe Biden as president.

His lead was larger than trumps in 2016 and we still certified the state for Trump back then.

Dear Board of Canvassers,

We all rely on poll workers, clerks, volunteers, and canvassers to carry out the laborious and meticulous mechanisms democracy requires. Thank you for your part in that important work.

The voters have done their duty, turning out in record numbers even in the face of a pandemic. The poll workers, clerks, and volunteers labored tirelessly to ensure that voting went smoothly and votes were counted quickly and accurately. The canvassers of all 83 counties have checked the math and certified the results, and the state Bureau of Elections has recommended statewide certification. Now it is your turn. You must tally and certify the statewide results without delay to effectuate the will of Michigan voters.

This election has been free and fair, and conducted in full view of the public. Please certify Michiganders' votes immediately to ensure the continued legitimacy of our representative democracy.

Dear Michigan State Board of Canvassers,

I am writing to express my concerns regarding this election and urge you to please audit this 2020 Election. Our Constitution calls for a free and fair election, if there are any questions about whether this election was FREE and Fair an audit should be completed, no matter which side has the questions. If this election was not done FREELY and FAIRLY, we will NEVER get a free and fair election again without an audit. It is time to put party politics aside and ensure that this election was 100% LEGAL, FREE, and FAIR. I strongly urge you to vote against certifying this election and instead call for an immediate Audit of all votes. Thank you for your time and God Bless you.

SUBJECT: STOP THE STEAL IN MICHIGAN - ***DO NOT CERTIFY THE VOTE***

Dear Michigan State Canvassing Board:

I am writing to ***urge you not to certify the election results of the 2020 Presidential Election*** until all investigations, forensic audits and exams are completed. In addition, we must see all legal cases that are before our State and Federal courts comprehensively processed on behalf of a fair election.

As you are aware, endless amounts of mail-in-ballots arrived at TCF between 3:00-4:30 am on November 5, 2020. These ballots were not observed by both parties, as required by Michigan law, but were brought in from the back door of TCF when "all counting was stopped" and most challengers were sent home. Michigan law states that all votes and absentee ballots must be completed by 8:00 pm on election day. This did not occur.

Federal and local legal teams have collected hundreds of signed and notarized affidavits of fraud, computer "errors" and proven transferral of votes from President Trump to Joe Biden. There are written affidavits confirmed by sworn oaths of poll workers, that challengers were kept 10-25 feet away from tables being "viewed". Also, outlined are eye witness accounts of voters being told to select Joe Biden on their ballot then being followed to the voting booth to ***"help" them cast their ballot for Joe Biden***, under the watchful eye of the election/poll worker. Senator Colbeck verifies that he was barred from re-entering the building to view military ballots, along with noting that approximately only 40 Republicans were allowed in to try and cover 134 tables. These statements need no further explanation. It is all illegal, unconstitutional and therefore uncertifiable!

***There are more damaging examples of willful corruption and negligence surfacing every hour. Most recently, the Republican Canvassers in Wayne County were publicly harassed, threatened and promised a comprehensive audit to change their vote on certifying the results, only to be made a mockery of by Secretary of State, Jocelyn Benson, stating almost immediately that there would be NO AUDIT of the vote. The outrage is measurable by we the people who believe in the law and constitution. A 71% tabulation discrepancy is NOT acceptable.***

At this point, I do not have trust or faith in the results from these sham canvassing processes that have been completed in many counties of Michigan, but most egregiously in Wayne County, Michigan. This election has been stained by too many issues and suspicions to be legally certified, and I am counting on you to STAND UP STRONG for the law and the oath you took to uphold the Constitution of the United States of America.

Thank you for standing up for Michiganders.

Sir:

I was a poll inspector in Galien Township Precinct 1, and identified myself as a Democrat for purposes of working the November election. Each of our team, Republican And Democrat alike, welcomed every voter, encouraged them to cast their personal votes, and thanked them for participating. That is demanded by democracy, and we were there to assure each and every neighbor and friend that their votes would be counted.

At the end of the day, the tabulator accumulated the votes, and every one of my preferred candidates lost in Galien Township, in fact Donald Trump earned twice as many votes as Joe Biden. Still, even though my candidates lost in Galien Township, I did my job - the one I swore an oath to keep. I signed the tabulated vote tally.

I swore an oath to the construction, and I honored that commitment. I signed off on the people's will. Now it's time for the Canvassers to do their job. Certify.

Dear Sen. Majority Leader Mike Shirkey, House Speaker Lee Chatfield, Members of the Michigan Board of State Canvassers:

I come to you as a 70 year old former New Yorker, a single retired educator living in East Lansing, MI after many years in Detroit and Ann Arbor.

I have never been a formal member of any political party. I have voted in every election since moving to Michigan from New York over 50 years ago.

I come here to ask/beseech/implore that you certify Michigan's Nov. 3<sup>rd</sup> election as certified by every county in Michigan. That is the democratic process you were appointed to uphold beyond party affiliation.

Our people are beyond hurting from Covid, from the frightening economy, from loss of loved ones, and from the pure exhaustion of the year's political upheavals and drama.

Anything short of certifying Michigan election today will further exacerbate the wounds from which we are already bleeding. How much longer can people go without relief? That is the question and the people of Michigan have answered with their vote. Respect that vote. Certify the election as certified by Michigan's counties and certify it today.

I come to you hoping to appeal to the higher nature in each of you and all of us. Certify the election, stop all political posturing, help our state begin to heal and do it today. Do not inflict the toll of further delay on our democracy. Certify the election today.

Thank you.

Don't embarrass Michigan by not knowing the difference between a clerical error and fraud. Don't be influenced by men who can be persuaded to sell out Michigan for a bottle of champagne and a little flattery. COUNT OUR VOTES!! Joan Nagrant

The people of Michigan have spoken. Joe Biden won the State of Michigan by over 150,000 legal votes. The false claims of voter fraud continue to be struck down as there is absolutely no proof of fraud presented. The behavior by those who promote this attempt to overturn the election results is unpatriotic and extremely dangerous.

Please agree to certify the election results and put the United States of America first.

Respectfully,

Dear Board of Canvassers,  
Over the last several weeks we have scene first hand fraud at an incomprehensible level.  
Through first hand videos, audios and the actual evidence of more votes tabulated that registered voters.  
We are asking you stop the certification today.  
Recount every single legal ballot.  
Request an independent audit of ever single legal ballot.  
Michigan has been lied to over and over again.  
We have written several letters, called, emailed and received no response from our tax paid legislators.  
We are fed up!  
We want justice, transparency and our constitutional rights respected and followed in the exact order.  
Remember your "oaths" ¶us Each one of you.

Dear Members of the State Board of Canvassers,

It is your moment in history to do the right thing. Certify the election in Michigan without delay. Carry out your duty to certify an election that chose Joe Biden, even if he was not your preference for President.

Why? We still have our democratic process! That is what we must hang onto at all costs in this time of division. Of course we have neighbors who don't vote as we do. But, it is these elections that make us different from so many countries in the world and have made our democracy last. Don't mess around with our election system by playing games to delay the election, even of a candidate you don't agree with. The underlying system is the most important thing to protect. Michigan voted for Biden. Now, step up and say so to the world.

This is the way we do things in the USA. We go with the candidate who got the most votes. We don't filibuster like they do in Washington or pretend we don't notice that we are outvoted. We follow the will of the people – that is what makes America resilient. The Republicans and Democrats will keep vying for power, but only if we respect the will of the people when they vote, will our democracy last.

The Republican presidential candidate did not win Michigan. Certify the election for Biden. It is the right thing to do.

Thank you for reading my letter and taking public comments.

Sincerely,  
Karen Blackman

I am writing as a very concerned and heartbroken American Citizen. I am asking you not to certify the election results in Michigan until we get answers to the many, many questions. We need to believe our vote counts and right now we do not believe it does!

We need to verify the eligibility of each vote. We need to dig into the over vote issues.

Please, as fellow patriots, please investigate all reports of irregularities and fraud.

message follows:

The State Board of Canvassers has a duty to receive and certify the results as given to it by the 83 County Boards of Canvassers. All 83 counties have submitted the results of their canvasses, and you have received them. The State Board has neither discretion in deciding which results to accept, nor the authority to investigate allegations of fraud or other misconduct; its function is ministerial. The State Board may adjourn to await returns if any are outstanding (none are), but not pending an audit. Indeed an audit requires prior certification from the State Board. The function of an audit is to improve performance in the future, not to investigate fraud or misconduct. There are no allegations of fraud before this or any other body.

If you do not fulfill your role to certify the county canvasses you have received, you are forsworn in your failure to carry out the duties vested in you by the State of Michigan. This is not a close election: the difference between the candidates who finished in the top two positions is in excess of 150,000, whereas the number of ballots at issue owing to mismatches in the numbers of voters in-ballots cast is fewer than 400. Clerical errors resulting in fewer than 400 mismatches are not a valid reason to disenfranchise thousands of voters—or even one voter. No one alleges any malicious intention in these mismatches, which are indeed common. An audit may well help improve performance in the future, but it has no relevance to this election. Your failure to fulfill your prescribed duties would forever stain your personal integrity.

Worse, if you do not fulfill your role to certify duly submitted county canvases, you will disenfranchise not only the 150,000 + voters who make up the difference between the first- and second-place candidates, but all current Michigan voters. Michigan voters cast their votes--in the face of potentially serious risk to their health, or doubts heaped on the integrity of absentee ballots--trusting that they would be counted in the normal fashion, one vote per qualified voter. Moreover, it would cast a pall over all subsequent elections in the State of Michigan. It also adversely affects future Michigan voters. If voting outcomes are ever manipulated owing to

the personal preferences of officials vested with the State Board of Canvassers' responsibilities—to the voters of this state, and not to any other individual—no current or future voter in Michigan will have any good reason to participate ever again in this most fundamental exercise of democracy.

Please do your job of certifying the notes as certified and submitted by the counties. The people of Michigan have spoken! Voters have overwhelmingly voted for Joe Biden as their next president.

Please do not succumb to political pressure and unfounded and undocumented claims of "voter fraud" or other irregularities. These claims against majority black counties are racist at their core and are intended to disenfranchise large numbers of African American voters.

We are better than this in Michigan! You must vote to certify the votes for the Democratic electors in MI!

I am writing, as a registered Michigan voter, to remind you of your oath to **uphold the Constitution of the United States and the State of Michigan.**

Your responsibility is not to your party or your candidate but to the people of Michigan, to the voters who lawfully cast their ballots, whose ballots were properly counted.

As an absentee vote ballot counter and an attorney, I have first hand knowledge of the many protections in place to assure a secure and proper election.

**Do your job. Certify.** If you want to help the President, help him understand that he lost the election fair and square. Do not pander to destructive rhetoric that serves only to damage this country and the faith of the voters in the process you have sworn to uphold.

Do your job- do NOT tamper with the will of the people of the City of Detroit. It is racist, unlawful, unconstitutional and an embarrassment to the citizens of Michigan.

If Livonia can be certified, with the same number of statistically insignificant 'issues' you have ZERO grounds for doing anything but your job— CERTIFY THE COUNT.

SUBJECT: STOP THE STEAL IN MICHIGAN - ***DO NOT CERTIFY THE VOTE***

Dear Michigan State Canvassing Board:

I am writing to ***urge you not to certify the election results of the 2020 Presidential Election*** until all investigations, forensic audits and exams are completed. In addition, we must see all legal cases that are before our State and Federal courts comprehensively processed on behalf of a fair election.

As you are aware, endless amounts of mail-in-ballots arrived at TCF between 3:00-4:30 am on November 5, 2020. These ballots were not observed by both parties, as required by Michigan law, but were brought in from the back door of TCF when "all counting was stopped" and most challengers were sent home. Michigan law states that all votes and absentee ballots must be completed by 8:00 pm on election day. This did not occur.

Federal and local legal teams have collected hundreds of signed and notarized affidavits of fraud, computer "errors" and proven transferral of votes from President Trump to Joe Biden. There are written affidavits confirmed by sworn oaths of poll workers, that challengers were kept 10-25 feet away from tables being "viewed". Also, outlined are eye witness accounts of voters being told to select Joe Biden on their ballot then being followed to the voting booth to ***"help" them cast their ballot for Joe Biden***, under the watchful eye of the election/poll worker. Senator Colbeck verifies that he was barred from re-entering the building to view military ballots, along with noting that approximately only 40 Republicans were allowed in to try and cover 134 tables. These statements need no further explanation. It is all illegal, unconstitutional and therefore uncertifiable!

***There are more damaging examples of willful corruption and negligence surfacing every hour. Most recently, the Republican Canvassers in Wayne County were publicly harassed, threatened and promised a comprehensive audit to change their vote on certifying the results, only to be made a mockery of by Secretary of State, Jocelyn Benson, stating almost immediately that there would be NO AUDIT of the vote. The outrage is measurable by we the people who believe in the law and constitution. A 71% tabulation discrepancy is NOT acceptable.***

At this point, I do not have trust or faith in the results from these sham canvassing processes that have been completed in many counties of Michigan, but most egregiously in Wayne County, Michigan. This election has been stained by too many issues and suspicions to be legally certified, and I am counting on you to STAND UP STRONG for the law and the oath you took to uphold the Constitution of the United States of America.

Thank you for standing up for Michiganders.

In view of the fact that your wife was one of the challengers at the TCF Bldg in Detroit protesting the voting process, with no proof of wrong doing being confirmed, you should in all conscience withdraw from the 2020 state certification process. You are not viewed as impartial by the people of the state of Michigan. The people of this state have made their choice known by a considerable margin so what you feel needs to be "audited" is just darn right foolery and undermining our democratic process . Your job is to honor their choice not your political preferences. You have a history of being unscrupulous in your task. One of your jobs is approving of the electronic voting systems in this great state of Michigan. In doing so you must have a high degree of confidence that our elections are free from fraud. Where were your concerns about this prior to the election? Why didn't you take steps to fix the issues that might have caused possible irregularities?

As a Michigan citizen who is qualified as a poll inspector I've put my time and energy into this position, seriously upholding the rule of law. I can tell you from personnel experience that there is a high degree of scrutiny and regard for a secure and safe process. Thank you to all the clerks, all the poll workers, Democrat and Republican, who make sure that our elections are safe, secure and without fraud. Please do not disregard all these fellow citizens and their efforts. Also uphold the law as you were appointed to do. Isn't this what you expect from others? Or do you want to cause a dangerous precedent?

Another job you have is to certify the election. The count is done, majority of the people have selected Biden/Harris. The outcome is clear, your job is clear. Today the winners of this November 3, 2020 election should be certified!

To our Board of State Canvassers,

As I look out my window and see the snow on the cornfield, outside of the city of Dexter, I wish you all good health.

It is my expectation today that you will honor the duty, invested in you, to the people of Michigan; that you will certify our clear voting results, choosing Vice President Joe Biden as the 46th president of the United States.

In certifying, you honor the clearest, most peaceful, true voice we have as Americans, our vote.

In certifying, you honor your word and actions as servant-leaders to the good people of Michigan and servant to no other.

In doing so, you honor the sacrifice and the vision of our forefathers, who founded this Democracy to stand the test of time and trial. This is a trial. Make no mistake. As the song goes, "History has its eyes on you." If the vote of the people does not stand here, where will it stand?

**State Board of Canvassers**  
[elections@michigan.gov](mailto:elections@michigan.gov)

Dear Members of the State Board of Canvassers,

The November 3, 2020 General Election was carried out with the same processes, protocols and security as has been the case in all our previous elections, which the Board has certified unanimously.

I now ask you to carry out your mandate under state law and certify the General Election statewide. You have a legal duty to do so, but you also have a moral and ethical obligation. Your actions will be judged by our progeny, by history, and by people throughout the world.

Under state law, once all 83 counties in Michigan have certified their election results, you are entrusted with certifying the results. It's a simple clerical process that must legally occur before any auditing can occur. I hope there will be an audit so all Michiganders feel confident in the election results, but that can't occur until you vote to certify the Election.

Failing to certify on Monday won't change the outcome of the Election, but it will confuse the public and undermine confidence in our elections, which is bad for each and every American, regardless of political party.

The 2020 Presidential Election in Michigan was decided by 14 times more than the 2016 Election. Not only that, but turnout in the city of Detroit in 2020 was nearly identical to 2016 and President Trump performed better in Detroit in 2020 than in 2016. Additionally, the absentee counting boards in the city of Detroit were overseen by Chris Thomas, former elections director to Republican Secretary of State Ruth Johnson and Terri Lynn Land. As Mr. Thomas reports, there were Republican poll workers in the room the entire time and enough to watch and monitor each counting board.

Our elections are so secure that you literally have to defraud another voter. If the election fraud were ever committed, we the voters would be the first to know because when we request our absentee ballot or go in to vote on Election Day, someone would have already fraudulently requested a ballot by mail under our name. Not a single Michigander has reported such an issue.

The Board of Canvassers swiftly certified those far narrower election results in 2016, and every other election in our state's history. Please do not be the first Board to actively attempt to undermine our democracy that you were entrusted with protecting.

As public officials, you were entrusted to uphold our democracy by voting to certify our election results. Please uphold that duty on Monday. The world is watching.

You can help to calm the roiling waters that presently endanger our ship of state. I implore you to act decisively, to rise to the occasion and do the right thing, to certify this election clearly, proudly, and unanimously. In this historic moment, let Michigan be a beacon for the nation.

Sincerely,  
Regina Conti  
Wyandotte, MI 48192

To whom it may concern,

I am a proud Michigander. I have voted for both parties my whole life, always looking for the people whom I think will do best for the state - and make us proud.

Right now, Michigan is on a global stage with the world wondering if the people in charge are going to play along with Donald Trump's charade – his attempt to confuse and manipulate, make you all wonder if his reality is correct – despite the lack of evidence – in order to push you to disenfranchise Michigan voters. But it is Trump who has been sowing the seeds of distrust in our elections since 2016 – it is he who has laid the foundations of any doubt you may have in our voting systems by repeating it over and over and over – despite having no evidence. Its all good when it goes his way, but now that it did not, he says that it must be a fraud – why? Because he “believes it is”. He has gone to court and his suits have been thrown out because he has no evidence. Our Michigan judges are not idiots, if he had something, they would have had their day in court – but they didn't, so they were tossed aside.

Now, because he has lost, he has turned to you all in the hopes his doubt will play on your mind and cause you to do what courts would not. He wants you to be a judge based on what he says because he could not present facts in a court where they must tell the truth...

Please, please, please stand tall and strong and do your job by certifying the election results. Make our state proud and show the world that we are not so easily fooled by those who would seek to divide us for their own power grabs.

Sincerely,

In 2020, Michigan voters clearly voted for President Elect Biden. I voted for President Elect Biden.

Let's be clear. In 2020, Michigan voters spoke loud and clear, choosing Joe Biden and Kamala Harris by a more than 154,000 vote margin.

But Donald Trump and other Republicans are trying to undermine Michigan's election results.

The Board of State Canvassers has a legal obligation to respect the will of the voters and certify the election.

Please confirm that you have received this email and acknowledge my request.

To Whom It May Concern:

I am writing to remind you each that it is your legal responsibility to certify the election as the Michigan voters have determined, i.e. certifying the election in Michigan with President-Elect Biden and Vice-President Elect Harris as the winners of Michigan's electoral college.

To do otherwise is to compromise our democracy.

Dear Board Members and Fellow Citizens:

According to Michigan state law, once all 83 counties in Michigan have certified their election results, you are entrusted with certifying results for the entire state. It is a simple clerical process that must legally occur before any auditing. I hope there will be an audit so all Michiganians feel confident in the election results. However, an audit cannot occur until you vote to certify the election.

Failing to certify on Monday will not change the outcome of the Election, but it will confuse the public and undermine confidence in our elections and in our government. Undermining the election and government transcends political partisanship. We are strong and proud citizens of Michigan and the United States!

The 2020 Presidential Election in Michigan was decided by 14 times more votes than the 2016 Election. Additionally, voter turnout in the City of Detroit in 2020 was nearly identical to 2016. To ensure that the absentee counting boards in Detroit were fair and accurate, Chris Thomas, former elections director to Republican Secretary of State Ruth Johnson and Terri Lynn Land, oversaw the process. Mr. Thomas reports that there were enough Republican poll workers in the room throughout the process, to watch and monitor each counting board.

Our elections are secure. To defraud another vote, someone would have to fraudulently request a ballot by mail under an individual's name. The voter fraud would absolutely be identified when either the properly named voter requests their absentee ballot or goes in to vote at the polling place on Election Day. No Michiganians have reported such an issue.

The Board of Canvassers swiftly certified far narrower election results in 2016, as well as every other election in our great state's history. Do not be the first Board to actively attempt to undermine the time-tested laws you are entrusted to protect.

As public officials, you were sacredly entrusted to uphold our democracy and the republic by voting to certify our election results. Please respectfully uphold your duty on Monday, November 23, 2020. The state, country and world are truly watching.

Sincerely,

Sherri L. De Marco

**State Board of Canvassers**  
[elections@michigan.gov](mailto:elections@michigan.gov)

Dear Board Members,

Under state law, once all 83 counties in Michigan have certified their election results, you are entrusted with certifying the results. It's a simple clerical process that must legally occur before any auditing can occur. I hope there will be an audit so all Michiganders feel confident in the election results, but that can't occur until you vote to certify the election.

Failing to certify on Monday won't change the outcome of the Election, but it will confuse the public and undermine confidence in our elections, which is bad for each and every American, regardless of political party.

The 2020 Presidential Election in Michigan was decided by 14 times more than the 2016 Election. Not only that, but turnout in the city of Detroit in 2020 was nearly identical to 2016 and President Trump performed better in Detroit in 2020 than in 2016. Additionally, the absentee counting boards in the city of Detroit were overseen by Chris Thomas, former elections director to Republican Secretary of State Ruth Johnson and Terri Lynn Land. As Mr. Thomas reports, there were Republican poll workers in the room the entire time and enough to watch and monitor each counting board.

Our elections are so secure that you literally have to defraud another voter. If the election fraud were ever committed, we the voters would be the first to know because when we request our absentee ballot or go in to vote on Election Day, someone would have already fraudulently requested a ballot by mail under our name. Not a single Michigander has reported such an issue.

The Board of Canvassers swiftly certified those far narrower election results in 2016, and every other election in our state's history. Please do not be the first Board to actively attempt to undermine our democracy that you were entrusted with protecting.

As public officials, you were entrusted to uphold our democracy by voting to certify our election results. Please uphold that duty on Monday. The world is watching.

Sincerely,

Elizabeth Taylor

Joe Biden and Kamala Harris won the state of Michigan by more than 154 votes. Gary Peters won by 92,000 votes. The November election had much fewer discrepancies than either the 2016 election or the August primary.

It's unthinkable that there is any issue about certifying this election. The voters of Michigan have spoken loud and clear.

Do your job!

DO NOT certify anything

Full audit of Wayne county irregularities first

You ARE exposed either way for changing election law.

do the right thing

zuckerburg was involved with donations to u and others

you STILL need to do the right thing for this country

signed OHIO and billions of current and future americans

As a US Michigan citizen, born and raised...I'm contacting you this 23rd day of the 11th month in the year 2020, concerning our Presidential and state election.

BOARD MEMBERS SHOULD NOT CERTIFY THE ELECTION RESULTS UNTIL THERE IS A COMPREHENSIVE INDEPENDENT LEGISLATIVE AUDIT WHICH ALSO VERIFIES ALL SIGNATURES AND CHAIN OF CUSTODY!!!!

Good Afternoon,

It is the duty of each and every American citizen to vote for the individual to which the people have chosen in this democracy. Each and every one of you must note that this is a democracy, formed by the people and for the people and not for one individual only. We are made up of various nationalities to which makes America great and unless we are able to truly do what is best for our nation as a whole, we have failed tremendously and should remember all those who lives were lost to celebrate the freedom that this nation stands for. We as a nation is at the brink of destroying all that we have built over the last 200 and so years for one individual who care nothing about you and is willing to sacrifice this nation and our principles that created this county. I ask that you truly consider and remember as you vote the founding words of why America was created in the first place. ***"Our unalterable resolution should be to be free." "Wear none of thine own chains; but keep free, whilst thou art free." "You will never know how much it has cost my generation to preserve YOUR freedom. I hope you will make a good use of it."***

As John Adams stated that we should "Always stand on principle... even if you stand alone." Thomas Jefferson wrote "Nothing can stop the man with the right mental attitude from achieving his goal; nothing on earth can help the man with the wrong mental attitude." As well as, "Whenever you do something, act as if all the world were watching.", for truly the world is watching to see if the democracy that we brag and supposedly hold so dear is true. But most importantly of all as our late President John F. Kennedy wrote **"We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these, are life, liberty, and the pursuit of happiness."**

Please remember all who have gone before us to make our nation great and who lost their lives standing up for and saving democracy as a whole.

Please do not certify the Election Results until there is a comprehensive legislative audit which also verifies signatures and chain of custody. There are many witnesses to illegal votes, both parties not being able to "watch" the counting, ballots being thrown out, ballots suddenly appearing, software glitches. This is our constitutional right to vote and we feel it is being taken away from us. This needs to be fixed before it will hurt our future democracy, and we, you to follow the law of the Constitution. Thank you
